

**To add an ignored product to Kitchen Minder:**

A. Open PC Minder

B. Click on “Product Mix” tab

C. Choose Day Part you wish to add product to by clicking the “Day Part” button.

D. Go to Tools

E. Select: Edit Ignore Files

Note: Ignored menu items are listed in the drop down box in alphabetical order on the right.

**To recover an ignored item:**

- Select the item, then select the “<<” button.
- The item will be added to the list of active menu items on the main table. Change the name of the item if needed in the “MINDER NAME” column.
- Select the “Done” button to close the list of ignored items

\*\* Note when a new forecast is recalled, the “TOTAL PATTIES” column will contain the actual usage \*\*
